

# 20MWh Energy Storage Container for Mountainous Areas

## Overview

---

On May 16, Chinese company Gotion held the 2025 Global Technology Conference, where it introduced the Grid20MWh BESS 20MWh energy storage system. It is the world's first energy storage system to reach a capacity of 20MWh per unit, and its design supports a lifespan of 25 years. Ultra-large single-cabinet design delivers higher energy density. Optimized ESS layout reduces land use by 38%. Seven-layer protection plus IP55 / C5 certification. While the full spec sheet and mass production timeline haven't been released yet, here's what we've gathered from their promo video and available info: 1. So, what should you. From June 11 to 13, the 18th International Solar Photovoltaic and Smart Energy Conference & Exhibition (SNEC 2025) was held at the Shanghai National Convention and Exhibition Center. The latest capacity breakthrough was made possible by the use of large-capacity cells, system integration, compact design, and further optimization within the launch event and certification ceremony were held.
