

Anti-theft photovoltaic bracket manufacturers

Overview

221 solar panel anti theft clip products are offered for sale by suppliers on Alibaba. Designed with a focus on security for renewable energy assets, these high-quality brackets safeguard your panels from potential theft and damage. Each product complies. It is located in the center of Beijing-Tianjin-Baoding Economic Triangle Zone. Established in 2018, it is a rapidly developing photovoltaic component manufacturing enterprise in North of China, the factory area is over 12000 square meters, with a mature production team, advanced production. Each solar panel and inverter has a unique serial number. Recording these numbers and registering them with the manufacturer can help law enforcement track stolen equipment. If a thief tries to resell stolen panels, the serial number can prove ownership and assist recovery efforts. Whether for roof - top, ground - based, or wall - mounted installations.
