Onyx Solar is the world's leading manufacturer of fully customisable translucent photovoltaic (BiPV) glass products. Photovoltaic glass offers multiple installation possibilities within the building envelope, including curtain walls (vision and spandrel), façades, sunshades, railings, skylights. Onyx Solar's photovoltaic (PV) glass solutions for curtain walls and spandrels are transforming modern architecture by integrating energy-generating technologies seamlessly into building designs. For over 165 years we've been shaping the way our customers think about glass, from being just a functional building product to something that adds value to homes, buildings and structures. We know that natural light creates healthier, happier, and more connected spaces. We also understand that. The ProGlide Minimalist™ is Alspec's next-generation sliding and stacking door system, designed for expansive views, clean lines, and exceptional performance.
