

Battery cabinet inspection column installation requirements

Overview

The installation site must meet the requirements of the local fire protection regulations. Install the battery cabinet according to the installation drawings provided. Such records shall be made available for inspection to any Department representative, and also via the FDNY Business Portal for review by FDNY Technology Management. This approach acknowledges that while product standards are not installation codes, they can form a foundation for practice in codes by implementing requirements in. NFPA 70E®, Standard for Electrical Safety in the Workplace®, Chapter 3 covers special electrical equipment in the workplace and modifies the general requirements of Chapter 1. It is also recommended to wear rubber gloves, boots, .
