[11] It came into full operation two days after a ceremonial opening on 26 May 2006. It is located on the site of the historic Lehrter Bahnhof, and on the Berlin. Our 10ft refrigerated container is perfect for small loads, offering a cubic capacity of 13. It can carry up to 8,200kg of goods, with a maximum weight of 10,100kg. Medium-sized reefers balance power consumption and cargo space. Our 20ft. Opened to public use in May 2006, it is Europe's largest central train station, expecting over 350,000 passengers and about 1800 inter- and intra-city train connections daily. Designed by architect Meinhard von Gerkan and built between 1993-2006, it features 14 platforms spread over two levels.
