

Bhutan first solar

Overview

Bhutan's Ministry of Energy and Natural Resources has inaugurated the country's first utility-scale solar power plant. The Sephu solar project, located in the town of Wangdue Phodrang towards the centre of the country, occupies around 44 acres (17 hectares) of state-owned land. The Sephu solar project currently has a capacity of 17.38 MW following completion of phase one of project works. Bhutan inaugurated its first-ever utility-scale solar photovoltaic (PV) power plant on July 19 in Yongtru village, Sephu Gewog. In a significant step toward energy self-sufficiency, Bhutan today commissioned the first phase of its largest solar power project, the Sephu Solar Project, in Wangdue Phodrang.
