

Chint solar inverter App

Overview

Chint Connect is a free-to-use Android app developed by zeninforDev that provides complete installation, configuration, and troubleshooting of Flex Gateway and inverters. The Chint Connect App Connect the inverter through wifi or Bluetooth, configure the inverter parameters through the App, upload the power generation data and power generation status information of the inverter to the server, and apply the Internet of Things to the ordinary solar power station. Our Newest 3D Interactive Experience is Here! Get a detailed look at the newest addition to our growing family of 3-phase string inverters! Market leading solutions from a tough company you can count on. Our commitment is absolute customer focus for the life of the project. The site installation by using laptop, oscilloscope or other assistance tools in the past is now replaced by a smartphone. If you changed the setting with "*", this setting will take effect after the inverter is restarted.
