

Corrosion-resistant data center cabinets for tunnels

Overview

Constructed from high-grade, SS 304/316, stainless steel, our enclosures are engineered to resist corrosion, rust, UV exposure, and physical impact—making them ideal for both indoor and fully exposed outdoor environments. Legrand is a global provider of data center server and network cabinets, providing fully enclosed racks with side panels, front and rear doors, and roofs. We offer the most flexible cabinet and rack solutions designed to meet the needs of the most demanding environments. Bring networking and computing exactly where you want it - like the factory floor or warehouse - with NEMA & Eaton's industry-leading thermal management solutions, coupled with its broad range of server and network racks, enclosures and cable management, help customers meet evolving technology requirements and optimize data center airflow. Eaton acquired Tripp Lite and we're excited about it! Are you an. Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature rich cabinets. These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed PDU Cavities, and are configurable with or without doors. Alliance Steel provides precision flat rolled steel for data center cabinets that ensure your IT infrastructure's optimal performance, security, and scalability. Our expertise. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. FlexFusion™ Cabinets XG offer a unique universal platform.
