

DC discharge solar container outdoor power

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Overview

Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. DV Power's Battery Discharge Container System (BDCS) is a specialized solution for the safe and efficient discharge of battery packs prior to recycling. It. A solar power container is a self-contained, portable energy generation system housed within a standardized shipping container or custom enclosure. Off-grid living and clinics: Even homes and clinics have been built from shipping containers. Case studies show a 40-foot container home powered entirely by solar. In response, MEOX Off-Grid Container Power Systems has emerged as a modular, rapidly deployable solution (4-hour setup) that integrates solar, storage, and diesel backup for reliable energy independence. The BOSS enables precise, granular control over the charging and discharging of individual battery racks or entire BESS.
