

Don't you live on the rooftop and use solar power

APPLICATION SCENARIOS

Overview

Let's clear the air — the overwhelming consensus among scientists and engineers is that solar panels are generally safe. While myths around solar panel radiation risk circulate online, there is no evidence proving that rooftop solar systems cause harm to people living underneath. Maybe you live in an apartment where drilling into a shared roof isn't allowed. In 2024, it's a demonstrable fact: Most Americans want access to clean energy. But switching to clean energy isn't as easy as simply deciding to stop using coal or natural. Solar panels provide homeowners a unique opportunity to own the electricity that powers their home, instead of renting it from a utility.

Don't you live on the rooftop and use solar power

[Solar panel alternatives: What are your options?](#)

Between community solar, solar shingles, ground-mounted solar panels, and solar sheds or carports, there are several alternatives that let you benefit from solar without installing a rooftop system.

[How You Can Use Solar Power Without Installing Panels](#)

Whether you're a renter, live in a shaded area, or simply prefer not to install equipment, you can still tap into clean, affordable solar power. Rhythm Energy offers 100% solar plans that empower ...
