

Electric vehicle range argentina

Overview

The range of electrified vehicles in Argentina covers all types: conventional hybrids (HEV), plug-in hybrids (PHEVs), mild hybrid (MHEV) y pure electric vehicles (BEV) While conventional hybrids dominate, the range of pure electric vehicles is growing in diversity and accessibility as. The range of electrified vehicles in Argentina covers all types: conventional hybrids (HEV), plug-in hybrids (PHEVs), mild hybrid (MHEV) y pure electric vehicles (BEV) While conventional hybrids dominate, the range of pure electric vehicles is growing in diversity and accessibility as. The range of brands and models grows year by year, but electric and hybrid vehicles accounted for just over 2% of the nearly 450,000 units registered in 2023. In Europe, the percentage reaches almost 50%. [org/agenda/2023/11/electric-car-sales-europe-barriers-ev-adoption/](https://www.researchandmarkets.com/arg/agenda/2023/11/electric-car-sales-europe-barriers-ev-adoption/)) Most. The Argentina electric vehicle market size reached USD 9.65 Billion by 2033, exhibiting a growth rate (CAGR) of 30. The market is driven by increasing government incentives supporting sustainable transportation. Key View: We have recently revised our forecasts for Argentina's EV market and now expect passenger EV sales to grow from 666 units in 2024 to 2,020 units in 2025 - a 210% y-o-y increase - primarily due to the elimination of tariffs on electric and hybrid vehicle imports. The government eliminated tariffs on the import of up to 50. Although they still account for less than 9% of total sales, they have doubled 2020 figures and consistently exceeded previous year's forecasts every year.
