

Energy Storage Solar Photovoltaic Consulting

Overview

We provide support, coordination, expertise and strategic perspective to clients from pre-construction to operational phase of renewable energy projects, including Solar PV and Battery Energy Storage Systems (BESS). Fractal is a specialized energy storage and renewable energy consulting and engineering firm that provides expert evaluation, technical design, financial analysis and independent engineering of energy storage and hybrid projects. From the project design to its development, construction, QA/QC, and management, the ultimate goal is to ensure maximum profitability and adequate risk management. Solas Energy leads the way in helping companies and organizations achieve a sustainable, zero-carbon future. Specializing in renewable energy, energy storage, hydrogen, zero-emission vehicles (ZEV) mobility, grid modernization, and climate change solutions, we support utility and commercial scale. Exponent's expertise in the technical and business facets of energy production, transmission, and storage provides a one-stop shop for support at every phase of your renewable energy projects.
