## Energy storage projects require imported equipment

---

### [Tariffs: Analysis spells out extent of challenge for US BESS industry](#)

This is due to the reliance of the battery energy storage system (BESS) market on imported products from China, with "nearly all" battery cells used in US utility-scale projects in 2024 ...

### [Addressing Tariffs and Trade in Energy Storage Projects](#)

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity.

### [US energy storage outlook dented by Trump policies . Reuters](#)

From 2026, U.S. energy storage developers must grapple with stricter import rules and policy tightening by the Trump administration and factory buildout is uncertain.

### [Battery storage suppliers caught in the middle of US-China trade](#)

US imports of various types of batteries and related parts for energy storage systems, electric vehicles, consumer electronics and other uses have soared this decade, especially lithium ...

["Reality Check #10"Should we choose domestic or imported ...](#)

The core selection logic for engineers is to choose equipment that can meet the actual on-site operating conditions and long-term operational reliability, rather than relying solely on the domestic/imported ...

[Importing Renewable Energy Components Into The USA](#)

Looking to import renewable energy components into the USA? Understand regulations, benefits, challenges, and the import process in this informative post.

[American Solar and Storage Manufacturing Renaissance](#)

In the near-term, we will still require imports to fuel the rapid deployment of solar energy systems needed for the energy transition and to ensure abundant and affordable energy supply to keep our ...

### III. Requirements for Limited

Requirements for Limited- he need for additional protection functions or relays. This is typically only done for non-export systems, by analyzing the load in comparison to the generation in order to have ...

### Overview of Use of U.S. Trade Restrictions on Clean...

This policy brief provides an overview of the primary provisions of U.S. trade law that have been used to address trade concerns in clean energy.

### A 2025 Update on Utility-Scale Energy Storage Procurements

On the supply side, as noted above, the Uyghur Forced Labor Prevention Act may limit the ability to import equipment required for battery energy storage projects and the risks of any such ...
