

# **Estonian communication base station photovoltaic power generation system power generation company**

## Overview

---

(IN BRIEF) Telia Estonia has equipped nearly a quarter of its mobile base stations with solar installations—10–20 kW arrays built and operated by Sunly under a 15-year contract—yielding an estimated 1.5 GWh of renewable power annually. Smartecon is a prominent player in the solar energy sector, providing sustainable and cost-effective solar panel solutions, including the construction of solar power plants. With a decade of experience, the company specializes in engineering, procurement, and construction services for renewable. The communication base station installs solar panels outdoors, and adds MPPT solar controllers and other equipment in the computer room. With continuous technological advancements and further cost.
