

Europe renewable energy pristina

Overview

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near Pristina with a capacity of up to 100 MW. The electricity sector in Kosovo is almost entirely dependent on coal-fired power plants. Pristina is taking a monumental step towards a sustainable future with the finalization of an agreement worth over €80 million for a new solar heating plant. The deal, signed by Kosovo's Ministry of Finance and the district heating company Termokosi, and backed by the European Bank for. The EIB is providing €33 million for the construction of one of Kosovo's largest solar photovoltaic plants. “ As one of the largest renewable.
