

Hate neighbors installing photovoltaic panels

Overview

If solar energy systems installed on your property are adversely impacting your neighbors, several steps can be taken to address the issue efficiently and amicably. Open Communication: Initiating a dialogue with neighbors can often resolve misunderstandings, fostering. Before you object to a neighbor's solar panels, understand the balance between individual property rights and broader renewable energy regulations. As solar panels become more common, disputes between neighbors can arise. Assess Legal. Will it be very costly to relocate the panels on the roof if they are already in an array, would I have to submit the plan again to the HOA and get permission again and is the relocation procedure usually complicated?

I paid a lot for the system I got and am scared it will be super expensive to. Installing solar panels, whether on your roof or as a ground array, is exciting, but sometimes, it can become a battle with your neighbors, especially if they weren't aware that you were going to it. Complaints about glare and aesthetics, especially if you live in a residential estate or complex. Like I said, we were the first, but now there are three houses in the neighborhood that have solar. Someone has to be first, why not you!! Unless you have a homeowners association to deal with, you can do what is practical for you.
