

Hook bracket photovoltaic

Overview

The photovoltaic hook bracket system, with its lightweight design, high-strength load-bearing capacity and quick installation advantages, has become the preferred installation solution for scenarios such as color steel tile roofs and concrete flat roofs. Quality Material: Our solar panel bracket hook is made of high quality stainless steel to ensure durability and corrosion resistance, it can withstand a maximum weight of 3-500 kilograms, this hook is ideal for solar panels to be used outdoors for a long time. Adjustable Solar Panel Bracket Hook. The Mibet roof hook collection offers a diverse range of solar tile hooks to address any possible challenges. It encompasses everything from universal hooks to hooks specifically designed for flat and Spanish tiles, as well as from fixed hooks to double adjustable solar hooks. The tile hooks are compatible with most common rails and made of 304 stainless steel. Easy installation with no need for on-site welding. When you're dealing with a tile roof, mounting solar panels isn't as straightforward as drilling into shingles or screwing brackets.
