

How many companies are involved in Cambodia's energy storage projects

- | | | | |
|---|---------------------------|----|---------------------------|
| 1 | PCS Module | 6 | OPV2 side circuit breaker |
| 2 | Battery room | 7 | High Volt Box |
| 3 | Grid side circuit breaker | 8 | BAT side circuit breaker |
| 4 | Load side circuit breaker | 9 | LCD display screen |
| 5 | OPV1 side circuit breaker | 10 | MPPT |

Overview

The 23 energy development projects comprise 12 solar power projects, 6 wind power projects, 1 combined solar-biomass project, 1 gas-fired (LNG) power plant, 1 hydropower project, and 2 energy storage facilities. According to TrendForce, Cambodia is accelerating the development of clean energy to reduce its reliance on imported energy, enhance the country's energy security, ensure reliable and affordable power supply, and help this Southeast Asian nation achieve its goal of having at least 70% clean energy. PHNOM PENH: The Cambodian government on Friday (Sept 27) approved 23 power investment projects totally worth US\$5.79 billion for 2024-2029, aiming at addressing the shortage of energy sources, said a press release. The approval was made during a weekly cabinet meeting chaired by Prime Minister Hun. In a recent plenary session, the Cambodian Cabinet formally approved 23 important projects involving power investment. The projects, spanning 2024 to 2029, aim to significantly boost the nation's renewable energy. Cambodia's growing economy and urbanization have created a surge in energy demand, with annual electricity consumption rising by 15% since 2020. These projects aim to stabilize the grid.
