How much does a 2 kilowatt solar all-in-one machine cost

Overview

On average, a 2 kW solar panel system costs $6,360, according to real-world quotes on the EnergySage Marketplace from 2025 data. But your actual price will depend on factors like your. A 2kW solar system can generate 2 kilowatts of power under ideal conditions, typically comprising around 5-8 solar panels depending on the efficiency and wattage of the panels used. However, keep in mind that the amount of electricity your solar system can produce. The five 400W modules produce enough energy — 175 to 375 kilowatt (kW) — to offset small and medium size loads such as lighting, television and kitchen appliances while taking up little roof space.
