

# How much does a three-phase solar power pump cost

## Overview

---

To provide a ballpark figure, the cost of a 3-phase solar pump inverter can range from US\$1,000 for a basic 1. Here are some real-life examples: A 3kW inverter with a mid-range brand and efficiency rating could cost around. The cost of a 3-phase solar pump inverter is a multifaceted equation influenced by several factors: Power Output: The higher the power output of an inverter, the more expensive it will be. 5kW to 15kW, with higher power ratings commanding a higher price.
