

# **How much does an off-grid solar-powered containerized solar farm cost in India**

## Overview

---

An off-grid system costs an average of \$45,000–\$65,000. The total cost depends on several factors, such as system size, type, and components. Here's a detailed look at an off-grid system's major cost. However, prices aren't always simple—they vary depending on size, materials, certifications, and location. Let's break down what really goes into the cost and whether it's worth your money.
