

How much does it cost to buy a solar panel

Overview

Based on our 2025 survey of 1,000 solar customers, the national average price for a single solar panel professionally installed is \$1,200. This means most full-size systems of between 20 and 30 panels cost between \$24,000 and \$36,000. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7. While that price tag seems steep, the electricity bill savings you get from solar panels make them a worthwhile investment for most Americans. 50 per watt of installed capacity (more on price per watt below).
