

# How much does it cost to rent flat land for photovoltaic panels

## Overview

---

The short answer is, “it depends,” but solar lease rates (also called “rents”) typically range from about \$450 to \$2,500 per acre, per year—though can go much, much higher. This article looks at the factors that influence the rates a solar developer may offer for your land. This article looks. For instance, a ten-acre site outside a thriving urban area with high land prices that offers year-round sun, close proximity to a proper substation, and has tax incentives and other legislative support may be able to push the upper limits of lease rates at \$2,000 per acre. What Is A Solar Farm?

A solar farm, also known as a photovoltaic (PV) power station or solar park, is a large-scale installation.
