

How much is the rental price of photovoltaic panels per square meter

Overview

The average cost to lease solar panels varies depending on many factors including system size, location, and lease terms, typically ranging from \$50 to \$150 monthly with possible down payments up to \$1,000. As of 2026, the average cost of residential solar panels in the U. is between \$15,000 and \$25,000 before incentives. This typically translates to about \$2. 50 per watt of installed capacity (more on price per watt below). solar cost per square foot in 2025: \$6 - \$12 after the 30% federal tax credit. NLR's PV cost benchmarking work uses a bottom-up. Although the cost per square meter is typically used by engineers or system designers, buyers use the cost per watt to understand the investment costs. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U. solar photovoltaic (PV) systems to develop cost benchmarks.
