How to place the c8 battery cabinet

Overview

The battery is located in the front floor of the C8, let's see how it disassembles from inside the container. We open the car door and pull up the battery cover (floor). Please like and subscribe to my channel for more. Can anyone point me in the right direction for a battery replacement for a C8?

Also, is this something I can do myself or does it require a lot of resetting of stuff after replacement?

Thanks for all the help everyone installed new battery. Last edited by pats67copo; at 07:47 PM. Get a. for me, diy minor checks is important (as in front engine cars), but the battery is under the trunk?

Battery is in the "frunk" (front trunk) you just have to remove 3 plastic panels to access it. It is the exact same process no matter which trim level the car is 1LT, 2LT, 3LT, Z51, OR ZO6. Thanks Originally Posted by Jim.

[Deadly IMPORTANT ~ C8 Battery Change & Battery ...]

You have to be able to get into the C8, open the "frunk", take off 3 covers, THEN, finally change the battery. At least indexing the windows is easy.

Change the Citroen C8 battery (With video)

We open the car door and pull up the battery cover (floor). Once the floor compartment is opened, we will find the battery inside it. We unscrew the fastening screws of the battery terminals, then, we remove the same and then we remove the battery. We mount a new battery in the dedicated compartment, ...
