

How to set up a tripod for photovoltaic panel installation

Overview

This video demonstrates how to mount a solar panel onto a tripod using Campbell Scientific's solar panel extended bracket. But you always need to find a way to set up the panel once you get there. A standard camera tripod is light weight and collapses to a very small size. The advantage of SolarTripod is the pre-assembly fixed angle brackets; it reduces the time. Meta description: Learn how to install photovoltaic bracket tripods with our 2025 step-by-step guide.
