

Huawei ASEAN Energy Storage Battery Project

Overview

[SINGAPORE] The infrastructure division of Keppel will work with Chinese tech giant Huawei International to design and develop solar photovoltaic (PV) systems and battery energy storage system (BESS) technologies for interconnected power grids across South-east Asia. Energy storage is “essential” to overcome the intermittency of renewable energy sources such as solar power, says Cindy Lim, chief executive officer of Keppel's infrastructure division. The MoU will see the companies explore the design and development. (From left): Ms Cindy Lim, CEO of Keppel's Infrastructure Division, Mr Poh Tiong Keng, Executive Director, Keppel EaaS, Mr Nate Luo, VP, Head of Smart PV & BESS of Huawei International and Mr Maxi Wang, CEO of Huawei International at the MOU signing ceremony. Huawei ASEAN Energy Storage Battery Project

[Keppel, Huawei to jointly develop renewable energy solutions](#)

Keppel's Infrastructure Division signed a non-binding memorandum of understanding with Huawei International to co-develop renewable energy solutions, focusing on photovoltaic (PV) ...

[Huawei Digital Power Helps ASEAN Achieve Zero-Carbon ...](#)

Moving forward, Huawei Digital Power will double down on its investment in research and development, and deepen cooperation with local partners to jointly promote the transformation of ...

[Huawei and Keppel: Green Data with Solar & Battery Storage Pact](#)

In a bold move for a sustainable future, Huawei and Keppel formed a groundbreaking partnership to transform energy use in ASEAN data centers. They signed a Memorandum of ...

[Huawei to provide 4.5GWh BESS for Philippines Terra Solar project](#)

China-headquartered electronics firm Huawei has secured a supply agreement to provide a 4.5GWh battery energy storage system (BESS) for the Meralco Terra Solar project in the ...

[Huawei, Keppel sign MoU on solar and battery storage for data ...](#)

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy ...

[Huawei and Keppel join forces to drive renewable energy innovation in ...](#)

Through this partnership, we will harness Huawei's digital power technologies and Keppel's deep expertise in energy infrastructure to enhance the reliability and seamless integration of ...

[Huawei partners Keppel to drive renewables solutions across ASEAN ...](#)

Huawei International Pte. Ltd. and Keppel Ltd.'s Infrastructure Division have agreed to collaborate on renewable energy solutions, focusing on photovoltaic (PV) systems and Battery ...

[Keppel and Huawei Partner to Revolutionize ASEAN's Renewable ...](#)

By integrating solar and battery technology into the ASEAN power grid, the collaboration seeks to enhance energy efficiency and reliability. This integration will also facilitate cross-border ...

[Keppel, Huawei to collaborate on solar and battery tech for Asean ...](#)

[SINGAPORE] The infrastructure division of Keppel will work with Chinese tech giant Huawei International to design and develop solar photovoltaic (PV) systems and battery energy ...

[Keppel Infrastructure and Huawei to Jointly Develop Solar and Energy ...](#)

Keppel Infrastructure Division has signed a Memorandum of Understanding (MoU) with Huawei International to co-develop solar photovoltaic (PV) systems and battery energy storage ...
