

Huawei enters the field of solar power generation

Overview

Chinese conglomerate Huawei has launched FusionSolar 9.0, its latest integrated platform for solar-plus-storage generation, enhanced by smart energy management. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and microgrids. It boosts efficiency, reduces costs, and enhances stability in weak grids with high renewable. Huawei technologies are deployed at a large solar farm project in an arid section of Ningxia, China. Let's unpack their strategic moves. With global solar. Solar power is getting a major upgrade, and I've got the inside scoop from Huawei's latest announcement. They've just released their top 10 solar trends for 2025, and trust me - this isn't your basic rooftop solar story. Steven Zhou from Huawei Digital Power laid out a fascinating roadmap.
