

Huawei s module for charging lithium battery packs

Overview

For medium- and large-sized DC and industry critical power supply Huawei SmartLi Lithium Battery UPS provides reliable, high-performance energy storage, offering scalable and efficient backup power solutions for critical systems with enhanced safety and long-term sustainability. Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series. What is Huawei. Huawei FusionDC1000B is a next generation, prefabricated smart modular data center. LFP is the safest cell of Li-ion battery. The unique active current balance control technology supports the mix use of new and. The new modular Huawei LUNA2000-10-S0 (10 KWH) is a high voltage lithium battery which will be compatible with a wide range of self-consumption inverters especially with the Huawei SUN2000 2-6KTL-L1 single-phase inverters.

Huawei s module for charging lithium battery packs

SmartLi 3.0 ST Datasheet

SmartLi is a battery energy storage system developed by Huawei for UPS, which has the features of safety and reliability, long lifespan, space saving and easy maintenance.
