

# Huawei s new energy storage base in Guatemala City

## Overview

---

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4. The project has commenced in November 2024. Chen Guoguang, Chief Operating Officer of Huawei Digital Power and President of Huawei Smart PV, said. Huawei signs world's largest energy storage project Huawei said the energy storage capacity of the project will reach 1,300 MWh, marking the world's largest energy storage and off-grid. Guatemala's energy storage sector is experiencing transformative growth, particularly in renewable integration and grid stabilization projects. Utilizing Huawei's Smart String ESS solution, this groundbreaking project is redefining renewable energy infrastructure. How safe is a Huawei energy storage system?

What is Huawei PowerCube? To address this situation, Huawei offers PowerCube, an industry-leading hybrid power supply solution. Built along the lines of a Micro-Grid Energy System

[Huawei s new energy storage in Guatemala](#)

Huawei's Smart String Grid-Forming Energy Storage Technology is leading in the world. New energy is developing rapidly, but effectively integrating it into our systems poses significant challenges.

**Outdoor Cabinet BESS**  
50 kWh/500 kWh Battery Storage System  
Industrial and Commercial Energy Storage

- All in One**  
Integrating battery packs
- High-capacity**  
50-500kWh
- Degree of Protection**  
IP54
- Operating Temperature Range**  
-20~60°C.(Derating above 50 °C)
- Intelligent Integration**  
integrated photovoltaic storage cabinet
- Rated AC Power**  
50-100kW
- Altitude**  
3000m(>3000m derating)

[Huawei Guatemala Wind Solar and Energy Storage Project](#)

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024.
