

Hybrid power inverter factory in Austria

Overview

A complete list of component companies involved in Inverter production. Production line of the Gen24 Plus hybrid inverter from Fronius in Sattledt/Austria. But more is needed to survive as a European manufacturer in a tough market, as a visit on site shows. An unexpected. The company specializes in renewable energy solutions, particularly photovoltaic solar cells and technologies, and offers integrated solar inverters as part of its product line, promoting sustainable energy production. They are available in six version with rated AC power ranging from 15 kW to 33. Hybrid inverters can convert direct current (DC) from solar. The high-voltage battery with DC coupling ensures highly efficient energy transfer. Thanks to its modular capacity of 6.8 kWh, it adapts flexibly to your needs.

Hybrid power inverter factory in Austria

Grid-connected inverters

AIT is a pioneer in the research, development, and testing of innovative functionalities for grid-connected inverters, enabling a high share of decentralized renewable energy to be integrated into the power grid.

Factory visit at Fronius

Production line of the Gen24 Plus hybrid inverter from Fronius in Sattledt/Austria. Inverter manufacturer Fronius has almost doubled its production capacity in Sattledt, Austria. But more is ...
