

Iranian smart energy storage battery manufacturer

Overview

Kerman Battery Industrial Group, driven by active research and development, produces next-generation sealed batteries with extended lifespan and exceptional performance. Their expertise in exploration and production, combined with a commitment to advanced technologies, positions them. Kerman Battery Industrial Group, leveraging the expertise and knowledge of local specialists, has taken significant steps in designing and implementing solar power plants through its affiliate Kerman Energy Arg, as well as in the production of electric motorcycles via Kerman Sikat Arg, located in. Ashja Battery Industrial Group (Aco Battery) with more than four decades of experience in battery distribution, established its activity in 1982 and continued its activity in this field by obtaining representation from reputable domestic and international companies. This company was introduced as. Iran has officially embarked on developing commercial lithium-ion batteries, driven by rising global demand and the country's increasing focus on renewable energy and electric vehicles. We produce various batteries from 50 Ah to 225 Ah.
