

# Juba State New Energy Base Station

## Overview

---

A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes. The Juba Solar Power Station is a proposed 20 MW (27,000 hp) solar power plant in South Sudan. An official opening was held in Gondokoro, near the city of Juba. The East African country has an electricity access rate of 8. Agok Makur Kur Agok, on Thursday announced plans to officially commission a new power plant in Rumbek town in the coming months, as he toured key power generation facilities operated by Ezra Group of Companies in Juba. This 58MW/116MWh facility - equivalent to powering 35,000 homes daily - demonstrates how modern battery technology can transform energy accessibility.
