

Latest 50kW Folding Container Model

Overview

The PFIC50K64P30 is a compact all-in-one solar storage system integrating a 50kW power output, 64kWh energy storage capacity, and 30kWp high-efficiency foldable PV. The PFIC50K64P30 is a compact all-in-one solar storage system integrating a 50kW power output, 64kWh energy storage capacity, and 30kWp high-efficiency foldable PV. Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a capacity for mobility to provide green energy all over the world. The Solar PV container is a mobile, plug-and-play. In 2025, our mobile folding solar container solutions were deployed globally, providing reliable, low-carbon power for off-grid, grid-support, and flexible energy applications. Overall Project Performance Location: Guinea Configuration: Distributed at aluminum mining camps with no grid connection. Maximum solar yield power generated annually with 400 kWh per day as average energy output. In the East direction, the solar yield power is up to 76 MWh and in the West direction the solar yield power is 74 MWh. Specializing in research and development of solar panel, lithium battery and BMS. All systems include comprehensive monitoring and control systems.
