

# **Mali solar container lithium battery energy storage**

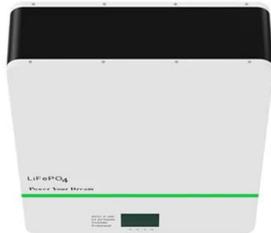

## Overview

---

This product is designed as the movable container, with its own energy storage system, compatible with photovoltaic and utility power, widely applicable to temporary power use, island application, emergency power supply, power preservation and backup. The answer lies in. In cooperation with the start-up Africa GreenTec, TESVOLT is supplying lithium storage systems for 50 solar containers with a total capacity of 3 megawatt hours (MWh), enabling a reliable power supply for 25 villages in Mali. As solar power capacity grows by 18% annually (Malian Energy Ministry, 2023), the demand for reliable energy storage systems has never been higher. Solar-plus-storage solutions are vital for homes, businesses, telecom base stations, and remote villages to reduce diesel reliance and secure reliable power. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh.
