Mc Solar Generator Array

Mc Solar Generator Array

Advanced Rocketry

The Solar Generator is a solar panel that generates a small amount of power just by being in sunlight. The panel will work as long as it has a direct line of sight to the sky (it does work under glass blocks) ...

Solar Panel (IndustrialCraft)

The Solar Panel is a variant of renewable power generators that utilizes the energy of the sun to generate EU. This means that they cannot work during the night, during rainstorms, underground, ...

MV Solar Array

The Medium Voltage (MV) Solar Array is an IC Machine used to generate EU from the sun. It is the equivalent of 64 Solar Panels, or 8 LV Solar Arrays. One MV Solar Array produces 64 EU/t, which is ...

Advanced Rocketry

Yet another form of solar power, the Solar Array is a multiblock which accepts sunlight on top and on bottom allowing it to generate power even on space stations.

Solar Arrays

They are used to reduce the size of solar farms, which can quickly become invasive. The preferable method of construction involves the setting up of Automatic Crafting Tables to perform these tasks as ...

Medium Voltage Solar Array , Tekkit Lite Wiki , Fandom

The Medium Voltage Solar Array is an Industrial Craft 2 generator. It is a more efficient version of the Low Voltage Solar Array, producing 64 EU/t instead of 8 EU/t in the same amount of space. This is ...

Advanced Solar Generator

The Advanced Solar Generator is a highly upgraded version of the basic Solar Generator. Construction of an Advanced Solar Generator requires four Solar Generators, but it produces six times the power ...

Low Voltage Solar Array

It generates power at a rate equivalent to the Advanced Solar Panel provided that the sky is visible, although it does not have any internal storage and also outputs its power at a rate of 8 EU /p as ...
