

New Hanergy flexible thin-film photovoltaic panel

Overview

MiaSolé's Thin-Film Solar Panels: MiaSolé, part of Hanergy, produces flexible CIGS thin-film solar panels suitable for curved structures and metal roofs. Their panels are lightweight and compete with traditional PV cells in efficiency, boasting a 17. Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. It has branches in China, North America, Europe, Asia-Pacific and other regions.

New Hanergy flexible thin-film photovoltaic panel

Hanergy Technology

The panels are the highest efficiency, flexible, thin-film product on the market today, with >17% cell efficiency. The FLEX Series module bonds to surfaces with a simple peel-and-stick adhesive.
