

# Northern Cyprus solar supporting energy storage policy

## Overview

---

NICOSIA - With a plethora of largely untapped wind and solar sources to generate power, Cyprus is turning toward offering incentives for alternate supplies, offering 35 million euros (\$36.99 million) aid for renewable energy projects tied to storage. The Ministry of Energy has today published guidelines for its €35 million energy storage scheme, previously approved by the Council of Ministers, aimed at promoting energy storage solutions across the country. Therefore, it is essential to provide for a robust regulation of the electricity storage systems in order to achieve a stable and safe supply with no discrimination given by the NRA in the Republic of Cyprus. The government of Cyprus has confirmed financial support will be made available for renewable energy projects paired with energy storage. The Mediterranean island country's Ministry of Energy, Commerce and Industry announced last week (14 November) that the government Council of Ministers had adopted Directive 2019/944, which establishes common rules for the generation, transmission, distribution, energy storage and supply of electricity, together with consumer protection provisions, with a view to creating truly integrated competitive, consumer-centered, flexible, fair and transparent electricity. With over 300 days of sunshine annually, Northern Cyprus stands as a prime location for photovoltaic (PV) power generation.

## Northern Cyprus solar supporting energy storage policy

---

### [Cyprus unveils EUR35m scheme to boost energy storage capacity](#)

The initiative aims to reduce electricity costs for citizens whilst supporting the country's green energy transition. Benefits include reduced curtailment of renewable energy production and ...

### [Latest regulations on reservoir energy storage policy in Northern Cyprus](#)

Therefore, the main objective of the study is to evaluate the solar energy potential and investigate the techno-economic perspective of FPVSs at 15 water reservoirs in Northern Cyprus for the first time.

### [Northern Cyprus Energy Storage Planning: Overcoming Grid ...](#)

With solar irradiation levels hitting 1,750 kWh/m<sup>2</sup> annually sunlight intensity that rivals California's Central Valley, Northern Cyprus should be leading Mediterranean renewable adoption.

### [Cyprus: Guidance issued for 150MW/350MWh energy storage support ...](#)

The scheme, funded by the European Union (EU) Just Transition Fund (JTF), aims to curb the waste of curtailed renewable energy generation, increase the grid's hosting capacity for ...

### [Cyprus Offers 35 Million Euros for Renewable Energy Storage Plans](#)

NICOSIA - With a plethora of largely untapped wind and solar sources to generate power, Cyprus is turning toward offering incentives for alternate supplies, offering 35 million euros ...

### [Northern Cyprus Energy Storage & Photovoltaic Power Generation: A](#)

As Northern Cyprus continues its renewable energy transition, combining solar generation with smart storage solutions will be crucial for both economic and environmental sustainability.

### [Northern cyprus energy storage industry policy](#)

The study aims to reveal the prominent strategic energy alternatives for Northern Cyprus (NC) in its aspiration to transition from fossil fuels to solar energy/clean energy/renewable energy with ...

### [Northern cyprus energy storage conference](#)

As the photovoltaic (PV) industry continues to evolve, advancements in installation of smart energy storage cabinet in northern cyprus - Suppliers/Manufacturers have become critical to

### [Regulation of Energy Storage Projects in Northern Cyprus ...](#)

Discover how Northern Cyprus is shaping its energy future through storage project regulations. Learn about policies, market potential, and actionable insights for investors and developers.

### [Cyprus confirms EUR35 million 'investment](#)

The government of Cyprus has confirmed financial support will be made available for renewable energy projects paired with energy storage.
