

Omega solar inverter in China in Iraq

Overview

On Aug, in the Kurdistan Region of Iraq, Chinese-made solar equipment has become a key solution for local businesses and residents tackling power shortages, driving the rapid rise of the solar industry in the region with its high cost-effectiveness. An inverter is an electronic device that converts low-voltage direct current into 220 volt alternating current. In daily life, 220 volt AC power is usually rectified into DC power for use, and the inverter has the opposite effect. We provide top-quality solar panels, inverters, and batteries from trusted global brands, tailored for Iraq's energy. This article will explore the development of inverters in the Iraqi market in depth and recommend solar inverters that meet the country's needs. On the rooftop of Paia Agency, an art.
