

Photovoltaic panel glass dismantling machine

Overview

The photovoltaic panel glass removal machine is a key equipment for the recycling and treatment of waste photovoltaic panels. It uses mechanical tools such as precision screwdrivers or cutting blades. It is driven by solar or electric energy, and through precise control of heating and cooling processes, it utilizes the difference in thermal. Make solar panel recycling more efficient and high-quality. Separates glass and cell/EVA sheet without breaking glass using our original technology, Hot Knife Separation Method. If playback doesn't begin shortly. Recycling solar panels and dismantling photovoltaic (PV) panels is becoming a pressing issue for both environmental and economic reasons.
