

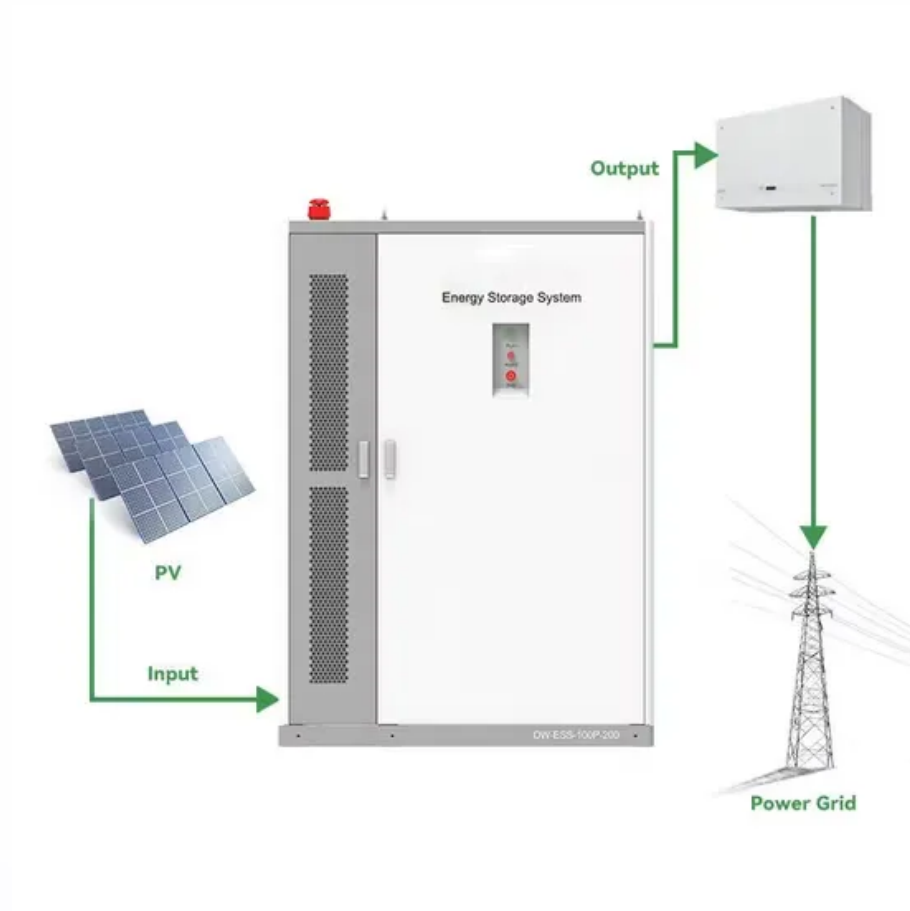

Photovoltaic panel individual orders packaging

Overview

We share 4 tips from our packaging designers in creating the most reliable solar panel boxes on the market, to protect the solar panels before they reach your door. A typical solar panel packaging consists of a cardboard box with the footprint of a pallet and houses between 26 to 36 panels in the box. Together with you, we develop customised solutions that deliver your products to your customers in a break-proof manner. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Shop a selection of flexible, rigid, diy, solar cells and solar panels for your home project or new invention. We started in 1999 by providing solar cells and kits to students wanting to learn more about renewable energy. Email us at contact@solarelectricsupply.com or toll free at (877) 297-0014. See Solar Panels Specials below for in-stock & ready to ship solar panels.
