

Photovoltaic panel work scam exposed

Overview

These scams start with an unexpected phone call, message on social, or even an in-person visit. Or they might try to sign you up for a “free” program to make your home more energy efficient with. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. As more families consider solar energy improvements, dishonest companies exploit the fine print in solar panel. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. The criminals are leaving unsuspecting homeowners with massive debt; many victims have reported losing tens of thousands of dollars. The con starts with a fast-talking salesperson offering a “limited time. While rooftop solar panels are becoming increasingly ubiquitous in homes throughout the United States, the industry also has a more sinister side: a seemingly widespread problem of fraudulent business practices that has cast a shadow over many solar panel companies. Dissatisfaction with the solar. This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies. This site receives compensation from the companies featured in this listing, which may impact where and how products appear.
