

Photovoltaic power generation and energy storage system warranty

Overview

Solar panels generally come with two warranties: The product warranty covers the equipment and typically guarantees at least 10-12 years without fail, and the power or performance warranty often guarantees at least 90% production at 10 years and 80% at 25 years. Solar panel warranties are one of the most important factors to consider when comparing your panel options, and are critical to protecting your five-figure investment. In financed or power purchase agreement (PPA) -based.
