

Photovoltaic wire support

Overview

The best wire management plan relies on understanding the terrain, project size, complexity, layout, and other factors. Our Objective is to be your best PV Wire Supplier. If you have a Big Order or Special Request, please contact us! Always Doing our Best to meet your Expectations. Photovoltaic Cable LLC. We have been in the Wire And Cable Industry for more than 20 years. We will be happy to help you with technical and. CAB® Solar Cable Management delivers safe, strong and durable support for all types of wiring in utility scale, ground-mount solar power plants. CAB®'s patented cabling system has gained wide attention and acceptance because it is quick and easy to install and provides large labor and material savings. Use of standard grades of plastic wire ties is by far the most common method used by installers to support and secure direct current (DC) string wiring in an array. At least some of these standard grades of ties fail well before the useful life of the solar PV system. This critical aspect of solar installation directly impacts system safety, performance, and longevity while ensuring compliance with National Electrical Code. Southwire offers an extensive catalog of cable products for renewable energy applications, Made In America and tax-credit eligible, based on Build America, Buy America and U.S. Engineered to industry standards for reliable power transmission, our vast product selection for the.
