

Residential energy storage switzerland

Overview

In Switzerland, approximately half of all residential photovoltaic (PV) systems are now paired with battery energy storage systems (BESS), reflecting a growing trend toward energy self-sufficiency and optimized solar power use. Swissolar, an industry association, released its first storage market. Trade body Swissolar has called for a national energy storage strategy to support the rising popularity of home solar-plus-battery systems in the country. As electricity prices rise and the nation shifts toward renewable energy, more homeowners are choosing to invest in solar. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Oil & Gas, Recycling or Energy Efficiency companies.
