Rimworld sun lamps and solar power

Solar generator

Two solar generators will roughly power a sun lamp. However, the solar generator's full output doesn't always align with the sun lamp's on period, so batteries remain helpful.

[Sun lamps are >366% efficient. : r/RimWorld](#)

Consider a sun lamp powered by solar panels. Each solar panel takes up 16 tiles and produces 1700W with 100% illumination. Thus the solar output in Rimworld is at least 106.25W per tile. The sun lamp ...
