

Rural whole house photovoltaic panels

Overview

The short answer is yes - a fully solar powered house is not only possible but increasingly practical for most homeowners. Modern solar technology has reached a level of efficiency and reliability that makes complete grid independence achievable in virtually any climate. Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. In many rural areas, electricity supply is often inconsistent or unavailable. Only some homes are suitable for solar panels;.
