

San Diego home solar inverter prices

Overview

Current market averages place the cost per watt (\$/W) for solar installation in San Diego between approximately \$2.13 before any incentives are applied. This guide provides comprehensive insights into pricing variables, installation costs, incentives, and long-term savings specific to the San Diego area. After claiming the 30% federal solar tax credit now available, the cost is reduced to \$1.40 per watt, making a typical 7.2 kilowatt (kW) solar system \$10,080.
