integrated energy storage  
cabinet hybrid**

## Overview

---

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ensuring reliable performance in various environments. Affordable, reliable and sustainable. He also announced that Singapore would set its installed solar capacity target to at least 2 gigawatt-peak by 2030, enough to power the country's most viable clean energy source. However, it is intermittent by nature and its output is affected by environmental and weather. The Zutto PowerVault05 is a state-of-the-art hybrid energy storage system designed for seamless integration with solar, grid, and diesel generator setups. With a capacity of up to 60kWh and PCS power of 30kW, it is equipped to support up to 10 parallel connections for expansive applications. It provides clean, silent electrical energy on demand, making it the core of any power solution reducing the reliance on traditional.
