

Solar outdoor power supply with 3-5 kWh of electricity

Overview

5kW solar power home system paired with a 5kWh lithium battery, designed for residential energy independence, backup power, and off-grid living. Designed to suit a variety of needs, this system offers reliable power for your home, RV, cabin, or off-grid project. 5kW solar system is a popular midsize charging solution that can charge most indoor or outdoor appliances for long hours. The system typically costs \$10,150, though it will be reduced to \$9,380 after the 30% federal tax rebate program. You will need at least 7 - 11 solar panels to build a 3. *The mSocket Pro sold separately.
